

Instructions:

1. Click on File -> Make a copy

Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	MathTutor Mastery Project	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
[User will be prompted to enter which operator (-, +, /, *, they want to use]	[Computer will randomly generate two numbers 1-10. Computer will go down switch statement until the inputted operator is found and calculates answer with chosen operator and generated numbers.]	[Computer will output the first generated number, then the chosen operator, then the second generated number as an equation, and will ask the user for the answer. If inputted answer is correct computer will print "Correct!" if it is wrong computer will print "Incorrect!" and will output the correct answer]
