CS Error/Bug log

```
int[] even = new int[Even + 1]; // Create array for even numbers
```

The code above is the code I tried to run which would result in an error, and my code not running correctly.

```
int[] odd = new int[Odd - 1]; // Create array for odd numbers
```

I did the same with the odd array.

```
int[] even = new int[Even]; // Create array for even numbers
int[] odd = new int[Odd]; // Create array for odd numbers
```

To fix this error I removed the "-1" and "+1" from the arrays.
